

CAREER KICKSTARTER WORKSHOP

Discover your pathway to a fulfilling career in health care.

WHAT IS CAREER KICKSTARTER?

At Australian Paramedical College we know that you want a life of significance and recognition through a successful and fulfilling career in health care.

In order to do that, you need clarity about the path ahead and an opportunity to learn skills to build the confidence you need to take the next step.

The problem is there's a lot of misinformation out there and limited opportunities for hands-on training, which makes you feel both uncertain about and ill-equipped for what's ahead.

We believe that if you have the courage to step out and follow your dreams then you deserve every opportunity to succeed. This is why we have developed the Career Kickstarter Workshop.

The Career Kickstarter Workshop is a one-day training experience that will help you:

CLARIFY STUDY & CAREER PATHWAYS

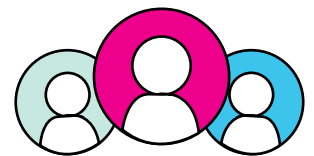

DEVELOP SKILLS & CONFIDENCE

GAIN FIRST AID & CPR CERTIFICATION

CONNECT WITH STUDENTS & PARAMEDICAL TRAINERS

WHO SHOULD SIGN UP?

This workshop is uniquely designed for:

1. CURRENT MEDIC OR PARAMEDIC STUDENTS who want to put a fire under their studies, skills and career development.
2. ANYONE considering becoming a medic or paramedic and wants to gain life-saving skills and clarify their pathway to success in this exciting industry.
